Department of Information Systems

Welcome to IS

Dr. Agnes Nakakawa. HoD – Information Systems

The Information System (IS) Department is one of the four academic departments at the School of Computing and Informatics Technology. The department provides both undergraduate and postgraduate courses. Some areas of the study and research in IS include System Analysis and Design, Data warehouses, Databases, Health Informatics, Management Information Systems and Decision Support Systems. These provide students with a thorough knowledge of the field thus providing an enduring foundation for future professional growth. IS students learn to become problem solvers in organizations, institutions, the economy and society. The department currently has two dynamic research groups namely: Simulation and Modeling Group and Visualization group.

The department has 15 full-time academic staff and a diverse collection of part-time faculty to support the teaching needs for, the IS student community. Administrative staff members supervised by the Head of Department ensure the smooth functioning of the department operations.

It offers programs of Bachelor of Information Systems and Technology, Master of Science in Information Systems, Postgraduate Diploma in Information Systems, and PhD in Information Systems.
