## Department of Records and Archives Management

## Welcome to RAM

Assoc. Prof. David Luyombya – HoD, Records & Archives Management

The Department of Records and Archives Management is one of the two departments that form the East African School of Library and Information Sciences of the Makerere University College of Computing and Information Sciences (CoCIS).

The department trains students in the concepts of records processing and organization, record keeping practices, management of electronic records in contemporary society, office supplies and materials management, records management and the law management of business records paleography and oral history management government information resources and systems records storage and security, digital preservation and management of museums. The department prepares its graduates to acquire the knowledge required to ensure accountability transparency and good governance which are the essential foundations of effective public administration

## Head of Department's Message

Greetings from the Records and Archives Management (RAM) Department.

The East African School of Library and Information Sciences EASLIS) is home to the RAM Department. The Department pushes new techniques in both teaching and learning as well as research, with the goal of excellence. Strong strategic alignment with the public and private sector partnerships, support this. Through its equity, diversity, and inclusion practices and activities, the Department is steadfastly committed to serving all of its students.

With an emphasis on the fundamental, theoretical, and applied aspects of contemporary records and archives administration and its role in society, the Department's education programs offer both general and specialized records and archives disciplines. We provide a Master of Science in Records program and undergraduate training in records and archives management.

The UN Sustainable Development Goals, the Makerere University's new Impact 2030 Strategic Plan, and health, land, and digitization in general are the Department's top strategic priorities. The Department wants to advance and take the lead in Records archives management technologies. Creating networks of collaboration are essential components of the Departments education and research strategy.

I urge you to learn more about our Department's offerings in research and education by going to the EASLIS website and clicking on the links if you're interested in how records and archives management can influence and transform the world.

**Dr. Luyombya David**  
Head of Records and Archives Department (RAM)

## About RAM

**A BRIEF HISTORY**

**RECENT PUBLICATIONS**

With the specific needs in records and archives management, EASLIS started teaching RAM courses in BLIS programme since 1989, later designed specialized programmes starting with a Diploma in Records and Archives Management (DRAM) in 1999. RAM was made an option in the Bachelor of Library and Information Science (BLIS) Programme in in 2001 and in 2009, the school introduced the Bachelor of Records and Archives Management in 2009 to address a human resource demand in the field of Records and Archives Management. In 2016, a Master's of Science in Records and Archives programme was introduced to provide opportunity for professional growth of candidates completing undergraduate studies.

The Department of Records and Archives Management is currently responsible for running courses in the following programmes:

1. Master of Science in Records and Archives Management (Msc. RAM) -2 years,
2. Records and Archives Management Track in the Bachelor of Library and Information Science Programme (BLIS)—2022/23.
